**Subject:** Toll booths

Hi Mike,

Bad all around, bad for highways; more congestion we don't need. Toll runners. Most likely destruction of tolls.. Most if not all will jump off the highway, then, the back roads of town will come to a stand still. This will create much more trouble than is needed. If there was not SO much wasteful spending, A serious lack of how to handle tax payers money. Again this would not be needed and or necessary.

No one goes to NY for great deals or cheaper goods, they come to Danbury.
